

**Wandere Rosebella**  
**Full-stack developer | Aspiring software engineer**  
+254115827740 [Email](#) | [Github](#) | [LinkedIn](#) | [Portfolio](#) | [Devto](#)

## Professional Summary

Software Developer with hands-on experience building REST APIs and database-driven applications using Go, Javascript and SQL, alongside practical application of algorithms and datastructures. Interested in growing as a backend developer while exploring AI and Machine Learning

## Technical Skills

**Languages:** Golang, JavaScript, SQL

**Frameworks:** Express.js

**Tools:** Git, GitHub, Linux, VS Code

## Projects

[HerCycle](#) - Menstrual health and Support platform

**Technology:** Node.js, Express, JavaScript, MySQL, HTML, CSS, Groq AI, Llama 3.3, M-Pesa Daraja API

Built a full-stack menstrual health platform combining cycle tracking, AI-assisted health inquiries, donations, and monthly subscriptions. Developed 13 API endpoints for authentication, cycle tracking, administration, AI inquiries, and payments. Integrated Groq AI with Llama 3.3 for conversational health assistance and M-Pesa Daraja STK Push for donations and subscriptions across 3 tiers, backed by 4 core MySQL tables.

[TrustWera](#) - Trusted local workers marketplace

**Technology:** Go, HTML, CSS, Javascript, Git

Built a responsive local worker marketplace focused on connecting households and small businesses with verified skilled and casual workers. Designed the landing page with worker discovery, search filters, service categories, worker profiles, verification indicators, and hiring workflows, following a reusable CSS design system and responsive development practices.

## Experience

**Apprentice Software Developer** – Zone01 Kisumu | May 2026 – Present

- Solving real-world algorithmic programming challenges.
- Collaborating with peers through code reviews and project discussions.

**Techlabs Mashinani volunteer** - Eldohub | May -August 2025

Supported learners in developing practical technology skills through community-based training and hands-on experimentation using mobile technology labs.

## Education

**Maseno University** - Bachelor of Science in Information and Communication Technology Management
